### *FROM HAND TO HOME*

Coming this fall from Rizzoli, *From Hand to Home* is the debut monograph from architect Douglas Wright, celebrating 20 thoughtfully crafted residences that blend classical influence with contemporary ease. Through collaborations with interior designers such as Bunny Williams, Cullman and Kravis, Brian J. McCarthy, Amy Lau, and others, Wright's work demonstrates his approach to creating sophisticated yet functional spaces. But what sets this book apart isn't just the timeless architecture—it's the way Wright brings each project to life with his own hand-drawn watercolors and sketches.

Interwoven with photography, these intimate illustrations reveal the emotional arc of a home before it's ever built. With the sweep of a brush or the line of a pencil, these drawings capture something a photograph cannot: the emotion of a façade; the rhythm of a roofline; the atmosphere of a room; offering readers a behind-the-scenes look at how his designs evolve from imagination to inhabitation.

In an era of digital renderings, *From Hand to Home* is a return to the human touch—how a home begins not with a blueprint, but with a brushstroke. *rizzoli.com*
